Wholesale Price List
Fall 1959 -- Spring 1960

Foreword

You are cordially invited to visit our nurseries. We are very proud of them. At our main nursery on Jericho Turnpike, we have 215 acres of irrigated land; at our other nursery, two miles south on Longwood Road, we have 210 acres also under irrigation. Both places were woodland, cleared and developed by ourselves. They were selected for altitude, being the highest points of land on Long Island, and for the high-quality heavy clay loam.

We have seven greenhouses where we propagate about 500,000 Azaleas, Shrubs and Evergreens each year.

Lining Out Stock in back of book, beginning on Page 28.

Catalogue

General Information

Location: We are located in the geographical center of Long Island—on the Jericho Turnpike (Route 25) half way between New York City and Montauk Point and half way between Long Island Sound and the Atlantic Ocean.

Prices quoted are f.o.b. our nurseries, and are subject to change without notice. This price-list cancels all previous price-lists.

Terms: Accounts are due thirty days from date of invoice. Cash or satisfactory trade or bank references must accompany all orders from purchasers unknown to us. Interest at 6% will be charged on all overdue accounts.

Claims must be made immediately upon receipt of stock.

Packing and Delivery are in addition to cost of plants. Our service is prompt, as we have several of our own trucks to make delivery, for which we make a nominal charge.

BALLING and BURLAPPING

B. & B. (ball and burlap) — is free of charge with all evergreens and also with deciduous stock where specified "B & B". A charge will be made for digging deciduous stock with ball and burlap where not specified "B & B", as per the following schedule:

Shrubs	Trees	
	Diam.	Ball
2 to 3 ft.50	15 in. 4.00
3 to 4 ft.75	18 in. 5.00
4 to 5 ft.90	24 in. 8.00
5 to 6 ft.	1.50	30 in. 12.00
6 to 8 ft.	2.00	36 in. 20.00

Azaleas

ALL SHEARED, COMPACT PLANTS **B&B**

We are the largest grower of azaleas in New York State. We have over 200,000 in the fields from eight inches to three feet in size. They are all under irrigation and are sprayed regularly. We feel that they are the finest azaleas ever offered to the trade. They are propagated from the hardiest species that have been outdoors unprotected for the past sixteen years, and are treated for shipment outside the Japanese Beetle Zone.

After the terrible winter we have just experienced, we have observed that the following varieties have stood up and have flowered very well: Rosebud, Daybreak, Hinodegiri, Ledifolia, Alba, Lilacena, all our Kaempferi and Vuykiana.

Liner Department

We have developed a nice business in liners due to the fact that we select our best plants for our customers. We plant whatever we have left on our nurseries. We have several acres under lath and find that we have better plants when shaded for the first two years.

Come out and pay us a visit.

We will reserve plants for Spring or Fall. No deposits required on any of our stock.

All our Liners are potted.

ABELIA Grandiflora

2½" pots, each	\$.15
2 year beds 18" to 24"	\$.50

ABIES Concolor

2 year seedlings	\$ 50.00 per 1000
